

EAGLE EYE · FORENSIC DOCUMENT EXAMINATION

Expert decision-support report · examiner review required

Case identification

Case number	EE-2026-0041
Document type	COVID Certificate
Issuing body	Ministry of Health
Examiner	A. Morgan

Automated findings

Check	Signal	Observation
Error Level Analysis	High	Localized compression mismatch around recipient name.
Copy-move detection	Medium	Repeated texture pattern detected near certificate ID.
Metadata	Low	Editing application marker present; not independently conclusive.
Typography	High	Baseline and glyph rasterization differ from surrounding text.
Layout / QR	Medium	QR quiet zone is inconsistent with issuer template.

Bob / MCP orchestration

Intake routed to Bob — Case file + structured observations

Activate forensic-examiner mode — Relevant skills loaded

classify_anomaly(observations) — Typography Forgery · Cut-and-paste

score_forgery_confidence(all_flags) — 87 / 100 · reasoning attached

map_to_standards(findings) — ASTM E2388 · FSL checklist

fetch_case_precedents("COVID Certificate") — State v. Sharma 2022 · 0.91 relevance

Report Engine: generate_expert_report(full_case) — Court-style PDF queued for examiner review

Interpretive statement

The automated analysis produced convergent indicators consistent with a Typography Forgery / Cut-and-paste anomaly. This report is a decision-support artifact. It is not a verdict, and the examiner must review, amend where appropriate, and sign before use.
